

INFINITY PARK™
Event Center
VILLAGE OF GLENDALE

AUDIO & VISUAL PACKAGES

The International Ballroom is a unique venue with in-house production capabilities to include customized graphics, video, lighting, audio and full event production without the need for an outside production company. By utilizing the 360 degree projections screens, clients can save money on expensive décor costs. Each event in the Ballroom can be uniquely customized by our Emmy Award winning production team, who has over 30 years of collective experience in the largest venues in the country.

The twelve DL2 camera fixtures used for lighting, video and graphics on the 360 degree screens allows clients the opportunity to customize each screen with logos, personal video and pictures, live TV and even play Wii games. The state of the art LED lighting used to illuminate each event with multiple color options is unique to Infinity Park and can't be found in other venues. With audio capabilities for any group size, multi-camera broadcast capabilities and surround screen production, there is never a bad seat at Infinity Park!
